AUGUST 2010

## CHINA YOUTH MISSION

**“Jesus of Nazareth... He went about doing good and healing all who were oppressed by the devil, for God was with Him.”**

This month the Lifeline team had a very fruitful trip; ministering in four cities to university students, church workers and house churches.

**My son Andrew and daughter Loren joined the team, preaching and praying for needs.** The power of the Lord was present in the meetings with over 30 baptized in the Spirit in the first meeting and dozens more in each location. In all, over 80 received!

The believers also needed much encouragement and teaching regarding their view of themselves before God.

*The “O” Team (Andrew, Bill and Loren) met up with a traveling choir who encountered the Holy Spirit during our meetings. Most all of them were baptized in the Spirit.*

After leading one young girl in a prayer of forgiveness, we sensed a release of God’s power in her. She immediately became ill which she thought was the result of her fast. **But when she lost conscienceness and her skin grew cold, we knew the power had stirred up a spirit.** Light confronted the darkness and in a matter of minutes she was again on her feet bubbling with joy. Jesus had freed her from the oppressive spirit. **Happy Day!**

The meetings awakened their faith and opened them wide to receive. **The results were powerful and many received healing and deliverance.** Although many of the meeting places were stifling hot, it was a joy to watch the believers encounter the power of God.

## Melody's Story

In our travels this month we met Melody, a dedicated and joyful Chinese believer. As we sat at lunch with this young leader, she gave us her testimony.

She had become very ill and died in the hospital. As her spirit left her body, she observed her dead form on the bed with her Christian mother by her side.

Her death experience was not like others who saw light or met Jesus. Melody was not a Christian and what she encountered terrified her. **She saw hell below her. It was a place of utter darkness.**

Overwhelmed with fear, she resisted being bound and dragged from that room to the place of torment. She cried out to Jesus to save her. **It was then that heavenly light began to fill the room and she met Jesus who extended mercy to her soul.**

Eventually the doctors arrived to pronounce her dead and have her sent to the morgue. Her body had already become cold and stiff but her mother had refused to let the doctors take her away. **She commanded Melody to return and suddenly the heart monitor began to record activity again.** She remained in a coma for 3 more days before leaving the hospital.

Today she is passionate about the gospel and lives to tell everyone about Jesus Christ who saved her from the penalty and torment of hell!

# Personally

Dear Friends,

*As you can imagine, it was a personal thrill for me to travel to China with my children. Hearing Andrew preach and watching Loren move in the Spirit made Papa proud.*

*But this trip was not about Dad, it was about ministering to the Chinese Church. **The young believers were very blessed to interact with Andrew and Loren and feed off their relationship with God.** Andrew brought some wonderful truths that touched some areas lacking in the Chinese mindset. What he shared ministered deeply to their hearts.*

*In every location, we spent much time praying for the believers to be filled with the Spirit. Even though we did not have all the testimonies translated, we could tell by the amazement in their faces and the tears rolling down their cheeks that they were encountering God in a life changing way.*

*It's not possible to share all the testimonies of what God did on this trip, but the results have been recorded in heaven. **Thank you for sending us on this mission.** We know that your reward is recorded there as well.*

*For the youth of China,*

*Brother Bill*
